Retraction Notice

This article has been retracted by the publisher for the following reasons:

We hereby retract the article (**Zebra fish behavioral assessment by using *calycophyllum spruceanum* bark methanolic extract**) published in IP International Journal of Medical Microbiology and Tropical Diseases (Volume 8, Issue 4, Page: 302-307, and Year 2022) due to the article being beyond the aims and scope of our journal.

After careful review and consideration, it has been determined that the content of the article does not align with the focus and subject matter of **IP International Journal of Medical Microbiology and Tropical Diseases**. The article's topic and findings fall outside the intended scope of our journal's editorial policies and guidelines.

We sincerely apologize to the authors and readers for any confusion or inconvenience caused by the publication of this article. It is our responsibility to ensure the highest standards of quality and relevance in the articles we publish, and we regret any oversight that led to the inclusion of this article in our journal.
