The advertisement is a screenshot of a website for 'Manuscript Peer-Review Process'. The header is dark red with the logo on the left and contact information on the right: 'Email: support, editoroffice@ipinnovative.com' and 'Support: +91-11-6384414, 6384415 | 9950436448 | 88'. A navigation bar below the header contains links: 'About MPRP', 'Journals', 'Support and Training', 'Contact us', 'Track article status', 'Register', and 'Login'. The main content area has a light blue background. On the left, the text reads: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.' To the right of this text is a circular illustration showing a person at a desk with a laptop, surrounded by icons representing various journal services. Below the text, it says: 'MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt.Ltd which is managed and operated by Innovative Publication and currently running with around 50+ Journals.' At the bottom left, the heading 'Why MPRP?' is followed by the start of a sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

CONTENTS**Original Article:****Pregnancy and asymptomatic bacteriuria- A study from a tertiary care teaching hospital, Hyderabad 181-185**

Yamini Kura, Swathi Akula, Sandeep Kumar Tipparthi, HRV Rajkumar

Bacteriological profile and antibiotic susceptibility patterns of lower respiratory tract infections in a tertiary care hospital, Central Kerala 186-190

Regha IR, Sulekha B.

Prevalence of Vancomycin Resistant Enterococci (VRE) in Catheter Associated Urinary Tract Infections(CAUTI) with special reference to biofilm formation 191-195

Shilpa Putta, Apurva Gandhi, Vijay Kulkarni, Neeta Jangale, Aparajeet Walawalkar

Seroepidemiology of dengue viral infection at a tertiary care hospital, Bommakal, Karimnagar, India 196-202

S. Fatima, Ark Archana, T. Ravi

Evaluation of purity, viability, stability and biochemical characteristics of clinical fungal isolates preserved by three different methods 203-205

Jaswinder Singh Gill, Sourav Sen

Distribution and antibiotic pattern of non fermenting gram negative bacilli isolation in a tertiary care hospital 206-210

Mowna Karthik, Dinesh Kaliyamoorthy

Does CSF antibodies assay help in differentiating neurocysticercosis from tuberculoma? 211-213

Raghunandan Nadig, A K Roy, Thomas Mathew, GRK Sarma, Muralidharan

In vitro antibacterial activity of green tea (Camellia sinensis) extract against staphylococcus aureus and MRSA 214-217

Neha Sowjanya S., Ramya S. R., Reba Kanungo

Bacteriological profile in UTI Cases with special reference to Amikacin sensitivity in a tertiary Care centre in Western UP 218-221

Ritu Agarwal, Gunjan Pandey

Urinary E.coli isolates in tertiary care centre of south Kerala: Antibiogram and ESBL detection by phenotypic confirmatory disc diffusion testing 222-225

Riyaz Sheriff, Jesna Johnson, Prasobh KK., Lakshmi Sarayu

Detection of efflux pump in multidrug resistant acinetobacter Species using Naphthyl-Methyl-Piperazine 226-229

Sandeep T., Indumathi V. A., Prasanthi S.

Antibiotic profile of enterobacter isolates from various clinical samples - A study from a tertiary care hospital 230-233

Vinay Kumar, Smitha Rockey

Detection of Extended spectrum beta lactamases in gram negative isolates causing urinary tract

infection in Tertiary care centre 234-239

M. D. Khaleel, Rozina Arshi Khan, Syeda Daniya Samreen, Syeda Juvaria Arshi

Seroprevalence of chikungunya fever in a tertiary care hospital in North Karnataka 240-242

Mahesh Kumar S., Uma Chikkaraddi, Smitha N. R., Divya A.

Bacteriological profile of gram negative nosocomial isolates from intensive care units and their antibiogram in a tertiary care hospital of South India 243-250

Zarrin Afroz, Basavaraj C. Metri, Faisal N. Gilani, Jyothi P.

Effect of delayed vial entry on the recovery and time to positivity of microorganisms from automated blood culture vials in a tertiary care hospital, South India 251-256

Subhashree Samantaray, Abisha, Suman Susan Prakash, Deepashree R., Apurba Sankar Sastry

Detection of cryptosporidium in fecal sample by three staining method from immunocompromised patients 257-260

Arti B. Ninama

Antimicrobial resistance pattern of Pseudomonas aeruginosa in a tertiary level hospital in Southern India 261-265

Dinesh Kaliyamoorthi, K. Sharanya, Chitralkha Saikumar, G. Sridhar, Boopathy

A study of intestinal parasitic infections in HIV infected individuals in Puducherry 266-271

G. Hemalatha, T. Mangaiyarkarasi, A. Malini, Sageera Banoo, K. Sethmadhavan

A study on the seroprevalence of cytomegalovirus infection in patients with coronary artery disease in a tertiary care hospital 272-275

Prabhu Vairavel, C.P. Ramani
